FOR IMMEDIATE RELEASE:

Secure Access Technologies Purchases 100,000 Licenses of StrikeForce's GuardedID® Keystroke Encryption Software

Edison, NJ (January 18th, 2011) – StrikeForce Technologies, Inc. (SFOR.OB), a company that specializes in the prevention of Identity Theft & Data Breaches, announced today that Secure Access Technologies (Secure Access) has purchased 100,000 licenses of StrikeForce's GuardedID Keystroke Encryption Software.

"Secure Access is a provider of security software and services to the banking, healthcare, insurance and government markets. We purchased 100,000 licenses of GuardedID for distribution to our customers and resellers," says Carl Krueger, Secure Access Chief Executive Officer. "We believe GuardedID's Keystroke Encryption software is the world's leading solution for the prevention of data-losses & data breaches due to spyware and keyloggers, the growing #1 malware problem based on the Verizon 2010 Data Breach report," says Krueger.

"We are very excited about Secure Access's purchase of 100,000 licenses of GuardedID for their customers," says Mark L. Kay, CEO of StrikeForce. "The Secure Access team is made up of industry leaders that specialize in deploying solutions for Information Assurance and data-loss mitigation for banking, healthcare, and insurance & government agencies. We are looking for a financially successful and long term partnership with Secure Access as they implement various programs with GuardedID," says Kay.
